Education

Visvesvaraya Technological University

B.E. in Artificial Intelligence and Machine Learning

Relevant Coursework: Data Structures, Algorithms, Operating Systems, Artificial Intelligence, Machine Learning, Computer Vision, DBMS

Expected 2026

CGPA: 9.23/10

Technical Skills

Languages: Python, Java, C++

Machine Learning: PyTorch, HuggingFace Transformers, LangChain, LangGraph, OpenCV, Diffusion Models

Full Stack: React, JavaScript, Tailwind CSS, Node.js, Express, REST APIs

Tools: Git, Docker, Google Cloud Platform

Experience

Vitalcep — Growth & Automation Lead

Dec 2024 – Jan 2026

D2C Health Supplement Brand

- Built end-to-end Meta Ads automation pipeline (creative → campaign → optimization) using n8n on AWS EC2; reduced setup time by 85%.
- Automated tracking across 40+ ad sets, improving ROAS by 2.3x and reducing manual work from 4 hrs to 20 mins daily.
- Designed backend workflows handling 10k+ events/day with 99.5% uptime.

Projects

CycleFlow — Consistency-Preserving Video Generation

[GitHub]

Temporal consistency in diffusion-based video generation

- Developing video generation system using cycle-guided flow matching and latent alignment.
- Combines optical flow priors with diffusion models for coherent motion across frames.

Model Arena — LLM Evaluation Platform

[GitHub]

Benchmarking and comparing large language models

- Built system for side-by-side comparison across prompts, tasks, and configurations.
- Evaluates quality, latency, and cost tradeoffs across providers.

FTunePrompt — Fine-Tuning vs Prompt Framework

[GitHub]

Study on when fine-tuning outperforms prompting

- Conducted 50+ experiments comparing LoRA fine-tuning vs prompting.
- Built CLI tool recommending optimal strategy.

TLDRUN — ML Paper-to-Code System

[Live]

Accelerating reproducibility in ML research

- Converts ML papers into runnable starter repositories.
- Generates dataset loaders, configs, and training pipelines.

Recursive Knowledge Engine — Retrieval + Reasoning

[GitHub]

Multi-hop reasoning with recursive retrieval

- Built recursive retrieval pipeline with iterative query refinement.
